Brunson Sets Easter Title
"Because I Live" will be the sermon subject for the 11 a.m. Sunday Easter service at the Church of the Nazarene, 1501 West Carson street, Rev. F. A. Brunson announced today.

A cantata, "The Saviour Lives," will be presented by a choir of 20 voices Sunday evening at 7:30, under the direction of Rev. Zaven Dohanian.
The public is welcome, the pastor announced.
At the 9:45 a.m. Sunday school hour, Prof. and Mrs. James Jackson of Pasadena will be in charge of the Sunday school service.
The goal of 400 has been set for the school attendance record of the year.

nomics, and Dan Rickard in trades and industry.
Certificate award winners in specific fields from North Torrance high school are: Judy Okada in laboratory science, Suzanne Mosher in music, Gail Patterson in art, Jeanne Frame in English, Arlene Lesar in social science, Diane Englehardt in business, and Joan Reed in home economics.
Most of the cup winners will compete against cup winners from other high schools in this zone late next month, when they appear before a judging panel of civic leaders, who will name the zone winners after hearing the students in group discussions of their studies as related to important topics of our times.
The awards are designed to bring public recognition and encouragement for outstanding scholarship, leadership, and promise of future service to society.
In addition to cash awards, 375 students will win gold cups, and 1700 will receive certificates of achievement in Southern California.
As in former years, all first-place winners will go to final competition next May, where they will receive no less than \$100 each and may go on up to the top \$1,000 awards.
The bank's program is statewide, with a total of \$44,900 in cash awards, but there is no competition between the four geographical divisions in which the bank divides the state; each division receives identical awards.

Candidates To Address Homeowners
Candidates running for the Torrance City Council have been invited to speak at a public meeting of the Pacific Hills Home Owners association Monday, April 2, at 7:30 p.m. in the WALTERIA elementary school.
The meeting is intended as a public service, officials stated. The club is not singling out any candidate for endorsement.
Also to be discussed will be the removal and relocation of the WALTERIA fire station, the rumored relocation of WALTERIA park, and the drainage problem.

Dresser Case . . .
(Continued From Page 2)
James Hall maintains, is that the court rested its decision on another Supreme Court ruling (Peters vs. Hobby) which does not apply in this case.
According to that case, the body involved had the power to reduce or eliminate the punishment but not to increase it.
However, Hall said, that body did not have legal powers whereas the City Council has been given legal powers by the city charter.
The other error involves the court's concept that the city manager was the head of the building department and not Dresser.
"We intend to show what the charter shows — namely, what his duties consist of and the fact that he is in a managerial position over all the heads of the departments," Hall said.
Hall said that the petition for rehearing will be filed shortly. If it is denied, the city will know in about 30 days whether the State Supreme Court will hear the case or not. It will then take about four months to obtain a decision.

I HAVE SOME MORE TO SAY ABOUT REAL ESTATE

In this newspaper last week, I stated that I agreed with an editorial appearing in the Torrance Herald on April 2, 1956. In effect, the editorial said "real estate men should not be Councilmen" . . . and . . . "the best interests of the city are not served when a Councilman is called upon to represent the city as a buyer of land or property while simultaneously acting as an agent of the seller."
This was not an attack on the real estate profession. Certainly, under democratic standards, realtors are eligible for election to the City Council—but ONLY IF THE INDIVIDUAL ELECTED IS WILLING TO PLACE THE WELFARE OF THE CITY AND ITS PEOPLE ABOVE HIS OWN PERSONAL BUSINESS INTERESTS.
It is technically legal and advisable for a councilman to decline to vote on an issue in which he has a personal and/or financial interest. HOWEVER, SUCH A REALTOR-COUNCILMAN WHO DOES NOT DO THIS ON NUMEROUS OCCASIONS—AS HAS BEEN DEMONSTRATED BY ONE MEMBER OF THE PRESENT CITY COUNCIL—IS ABSOLUTELY NOT FULFILLING HIS MORAL OBLIGATIONS TO THE VOTERS OF TORRANCE . . . NOR IS HE ENHANCING THE GOOD NAME OF THE REAL ESTATE PROFESSION.
One councilman, for example, just last week declined to vote on two tract maps involving 97 Torrance residential lots . . . because, in his own words, "I have a financial interest in this." When a councilman consistently declines to vote "for" or "against" important issues, he is depriving every man, woman, and child in Torrance of the representation to which they are entitled by law.
I firmly believe that the general real estate profession has contributed greatly to the tremendous growth and development of Torrance. I know we're going to continue to grow. Progress is an inevitable "must." THEREFORE, LET US ELECT AS PUBLIC OFFICIALS THOSE PERSONS WHO HAVE DEMONSTRATED THAT THEY HAVE THE BEST INTERESTS OF THE PEOPLE AT HEART, AND HAVE NO STRINGS ATTACHED TO PREVENT THEM FROM VOTING EITHER "YES" OR "NO" ON MULTI-MILLION DOLLAR ISSUES AFFECTING THOUSANDS OF TORRANCE CITIZENS.

Steelworkers like their jobs
... and pay day is only one of many reasons

How long does the average worker stay on the job in the steel companies the country over?
One answer is—thousands of them spend an entire working lifetime in steel. A more detailed answer is in the pictures above and at the right.
Men don't stay on jobs in our free country unless they like their jobs. And steelworkers stay. Their average length of service with present employers is more than twelve years.
Pay day is pleasant because wage levels in the industry place steelworkers among the top 10 per cent of all industrial workers. . . . And, since 1950, steelworkers' average hourly earnings have increased about four times as fast as the cost of living.
Steelworkers are safer at work than at home. In steel, safety is almost a religion. Accident frequency in steel is half the average for all manufacturing.
Among other benefits steelworkers enjoy are good working conditions . . . most modern tools, processes and equipment . . . insurance benefits . . . vacations . . . pensions.
There are more than half a million of these steady-going workers in the industry. The vast expansion under way right now to increase the country's steelmaking capacity by 15 million tons in just three years will create thousands of new jobs—good jobs, with good futures.
Steel is a rapidly growing industry. Production capacity increased 40 per cent just since World War II. Today, expanding even more rapidly, steel is constantly requiring new skills and offering greater incentive and opportunity for advancement.
No wonder steelworkers stay on the job. . . . They know that—

A breakdown of the total sum raised to date is as follows: Residential: \$2,470.00, 52 percent of \$4,690.00 quota, Mrs. Herma Tillim, and Mrs. Ben Haggot, co-chairmen. Commerce and Industry have \$4,355.00, 46 percent of \$9,515.00 quota, Al Hinz, chairman. Business totals \$1,182.00, 67 percent of \$1,760.00 quota, Stuart Avera, chairman.
Frank Afton, regional chairman, announced that \$51,512.00 or 62 percent of the Southwest Region's \$88,500 goal had been secured, with the Los Angeles Red Cross chapter reporting 70 percent of its \$3,338.00 "twin goal" appeal in hand.
